

BOYA NAGATEJA NAIDU

Kurnool, Andhra Pradesh, India

+91 8247720434 — boyanagatejanaidu@gmail.com — [LinkedIn](#) — [GitHub](#)

PROFESSIONAL SUMMARY

Final-year Computer Science student specializing in Data Science with hands-on experience in Machine Learning, Deep Learning, NLP, and Full-Stack Development. Experienced in developing AI-driven applications, building Conditional Variational Autoencoder (CVAE) models, and creating scalable software solutions using Python and modern web technologies.

EDUCATION

Rajeev Gandhi Memorial College of Engineering & Technology

Bachelor of Technology in Data Science – CGPA: 7.4/10 (as of now)

Nandyal, India

2023 – 2027

Narayana Junior College

Intermediate (MPC) – 91%

Kurnool, India

2021 – 2023

WORK EXPERIENCE

OSCOWL AI

AI Engineer Intern

Remote

May 2026 – Present

- Working on an **In-Silico Human Digital Twin** project, developing AI models for pharmaceutical research using clinical data.
- Developed and trained **Conditional Variational Autoencoder** (CVAE) models in PyTorch to generate realistic synthetic patient data for digital twin applications.

SKILLS

- Programming Languages:** Java, Python, SQL, C
- Technical Skills & Tools:** HTML, CSS, JS, Git, GitHub, VS Code, Power BI, MySQL, MongoDB, Supabase
- Artificial Intelligence:** Machine Learning, Deep Learning, NLP, PyTorch, Scikit-learn, NumPy, Pandas
- Computer Science Fundamentals:** Data Structures & Algorithms, Object-Oriented Programming, DBMS

PROJECTS

TaskFlash – Smart Task Management Platform

- Created a full-stack task management application featuring a centralized database for persistent storage and user-specific data.
- Integrated data analytics components and interactive charts to help users visualize productivity trends and task completion rates.

Intelligent Real-Time Weather Impact Analyzer

- Built an AI-based weather impact prediction system using Python, Machine Learning, Deep Learning, NLP, and Flask to analyze real-time weather data.
- Developed a responsive web application to visualize weather predictions and provide data-driven impact analysis through interactive dashboards.

ACHIEVEMENTS

- First Prize – Technical Quiz Competition:** Secured 1st place in a technical quiz organized by the Cyber Security Department, demonstrating strong technical knowledge and problem-solving skills.
- Research Paper Selection:** Selected as an intern to contribute to the development and publication of a research paper on AI-powered In-Silico Human Digital Twin for pharmaceutical applications.

CERTIFICATIONS

- MongoDB Associate Data Modeler** – [MongoDB](#)
- Associate Data Analyst** – [DataCamp](#)
- UiPath Certified Professional Specialized AI Associate Certification** – [UiPath](#)
- Salesforce Certified Agentforce Specialist** – [Salesforce](#)
